PROFESSIONAL PROFILE

BSc Information Technology graduate with hands-on professional experience in IT support and a strong software development foundation. Experienced in endpoint deployment, Windows and Microsoft 365 support, incident management, user assistance, printers and IT assets. Skilled across web development, programming, databases, Git/GitHub and AWS fundamentals, with growing focus on data engineering and analytics. Brings a practical troubleshooting mindset together with the ability to build and improve digital solutions.

PROFESSIONAL EXPERIENCE

IT Support Technician — PSIRA

Mar 2026 – Present | Pretoria, South Africa

- Provide first- and second-line technical support for hardware, software, user and endpoint incidents.
- Configure and deploy laptops, desktops, printers and peripherals for end users and business operations.
- Install, configure and troubleshoot Windows, Microsoft 365 and enterprise applications.
- Support user account administration and Active Directory-related requests.
- Log, prioritise, track and resolve incidents using ServiceDesk Plus.
- Provide remote technical assistance and troubleshoot user issues using remote-support tools.
- Maintain IT equipment, printers, consumables and endpoint readiness.
- Collaborate with senior IT staff, suppliers and stakeholders to support service delivery.
